EDUCATION

Parul University

Bachelor of Technology — CGPA: 8.12/10

Vadodara, India

Jun. 2022 – May 2026

Parul University

Dual Degree (Technical Diploma) — CGPA: 8.14 /10

Vadodara, India

Jun. 2023 – Jun 2024

EXPERIENCE

Content Writer

Aug 2024 – May 2025

Parul University

Onsite - Vadodara

- Enhanced learner engagement through strategic content development and curriculum optimization. Improved content quality and comprehension using data-driven content improvements and structured learning design.
- Recognized as **Best Intern** for outstanding content development, research quality, and contribution to educational materials.

ML Engineer

Apr 2023 – Jun 2023

Cellstrat

Remote

- Contributed to Machine Learning-based applications by supporting model development, data preprocessing, and deployment of AI-driven solutions in real-world projects.

10+ Hackathons Experience

Jun 2024 – Present

Competitive Coding

- Participated in 10+ hackathons including Adobe India Hackathon, applying data structures, algorithms, and rapid prototyping to build scalable solutions in collaborative coding environments..
- Solved **300+ LeetCode problems** covering Data Structures, Algorithms, Dynamic Programming, and Graphs.

PROJECTS

AI Resume Evaluation report | Gemini, Make, Google AI studio, Prompt Engineering, REST APIs

Dec 2025

- An AI-driven resume screening system using Gemini LLM to analyze resumes and generate automated scoring reports. Automated evaluation workflows with Make.com scenarios to identify candidate strengths, weaknesses, and optimization areas.

Candidate Ranking System | Python, spaCy, Hugging Face, BERT, Flask, MongoDB

Oct 2025

- Developed an AI-based Candidate Ranking System using NLP to analyze resumes and extract skills, education, and experience. Implemented machine learning-based ranking algorithms to match candidates with job descriptions and generate automated scores.

Hack & Hire | Javascript, MERN Stack, REST APIs, JWT Authenticator

Apr 2025

- A recruitment platform connecting job seekers and recruiters using the MERN stack for job discovery and profile management. Implemented job-based assessments to evaluate candidate skills and improve job readiness.

Image Caption generator | Python, TensorFlow, CNN, LSTM, Computer Vision, NLP, NumPy, DL

Aug 2024

- Implemented an Image Caption Generator using Deep Learning and Computer Vision to automatically generate textual descriptions from images.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, HTML/CSS

Frameworks & Libraries: React, Flask, FastAPI, Numpy, Tensorflow, Keras, Low-code / No-code workflows

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems, SDLC

Databases: MySQL, MongoDB, Oracle, PostgreSQL

Developer Tools: Git, GitHub, Docker, Google Cloud Platform, VS Code, Visual Studio, PyCharm, Eclipse, Linux Basics, Postman

Cloud Technologies: AWS (Lambda, EC2), Azure (ML Toolkit)

Machine Learning: CNN-LSTM, ML Pipelines, Model Optimization
